Why are dogs known as man's best friend? The close friendship may be caused by oxytocin, a chemical in both man and dogs. Oxytocin is strengthening the bond between mothers and babies. Moms' brains produce large amounts of when they look into their children’s eyes. when people stare into the eyes of their pet, oxytocin levels in the people's bodies increase. This also happens to dogs. One experiment showed that dogs looked at their owners longer when oxytocin was sprayed into their noses, but this occurred only in female dogs. These studies suggest that long ago, dogs may have become man's best friend through eye.

Listening to criticism is important if we want to better ourselves. focus on what's being said rather than how it's being said. If your boss angrily complains that your work is not done well, try to the angry tone. Consider whether his opinions are true or not, and find ways to improve. Second, it helps if you don't react immediately to criticism. Responding out of a sense of pride may make you regret your words. Lastly, don’t take criticism. Keep in mind that most people are criticizing your work, not you. However, criticism is helpful.

Constructive criticism is thoughtful and well-intended. Nonconstructive criticism can be rude and hurtful, from negative feelings. Fighting it will likely get you.

Part 4: Short Talk Questions (3%)  
Listen to the following paragraph and answer the questions.

What will libraries look like in the future? Scottish artist Katie Paterson answered this question with an art project. Every year for 100 years, Future Library will invite one well-known author to write a story. These stories cannot be read until 2114, when they will be printed on paper from 1,000 trees planted last year. Paterson hopes to show the connection between books and nature, and teach patience in a world where technology gives us everything instantly. Norway, a country with a close connection to its forests, gave Paterson land to plant the trees. The 100 manuscripts, along with a printing press and instructions for making paper, will be stored in Oslo. (10-p. 18-21)
