If you are prone to daydreaming about fabulous tropical paradises, there are many online sources to fuel your travel fantasies. Nothing says “vacation” like a trip to a tropical island. When you have blue waters, white sandy beaches, palm trees and salty breezes, it makes for a perfect holiday destination. In April 2019, my wife and I had the chance to visit just such a place. Boracay, an island in the Philippines, has made many “top ten” or “world’s best” travel lists many years in a row. 1

In April 2018, the president of the Philippines closed the island of Boracay to tourists. The massive popularity of the island had become a massive problem. Videos of raw sewage seeping into the ocean started appearing on the internet. After inspecting the situation, President Duterte declared the island a “cesspool.” 2. During that time, the government and locals had to work together to solve the problems that contributed to

the shocking environmental damage.

Given Boracay's recent challenges, we weren't sure what to expect on our visit. 3. Reviewers not only talked about problems with trash, but also about crowds and a party vibe that made enjoying the beach difficult. To fix that, the government has performed new rules.

There is now a limit to the number of daily visitors and the activities allowed on the main beach. There were crowds during our trip, but the beach itself didn't feel overcrowded. The main beach, aptly named White Beach, is postcard perfect. Before, it was filled with vendors selling tours and other services. They are no longer allowed on White Beach. 4. But if you want a tour, good food or a cold beverage, there are a lot of options lining the beachfront.

Our experience with the "new" Boracay was unforgettable. We went diving, did some island-hopping and ate delicious food. 5.

- (A) In fact, many things, such as drinking alcohol, dining services and smoking, are no longer allowed on the beach.
- (B) Whatever may have happened in the past, we think that the new rules will help keep the island a great destination for years to come.
- (C) Reviews from before the closing seemed skeptical about Boracay's place as a top destination.
- (D) But as we started planning our tropical island vacation, we discovered that there was trouble in paradise.
- (E) He ordered a six month cleanup to reverse the damage resulting from the impact of mass tourism.
